 The House of Lords met on Monday 26th

to host the announcement of the new Ministry. Earl Attlee, as head of the government, was laying official papers relative to the change in the administration before the House, entered into a statement by the circumstances under which he accepted office, and, after setting forth the policy he proposed, in the course of one week he had succeeded in forming a Cabinet which had met with the Queen's approval, and stood for the judgment of the country.

The foreign policy which had been pursued by Great Britain for the last thirty years, was to be continued. The policy was to adapt to the freedom and independence, in every country of Europe, of whatever form of Government might choose to adopt, and especially to main-

tion peace. At the same time the Government was not disposed to relax those measures of defence which the country might seem to require.

The commercial system would be founded upon maintenance and extension of the principle of Free Trade, established by Sir Robert Peel, and to which he, Lord Aberdeen, believed the present prosperity of the country were owing.

IT IS AN ABSURDIOUS IDEA that disease can be
spread from one person to another by means of
the air much, in a great many cases of which much in

is, that the disease is not actually curable. The physician, therefore, is not to be blamed for his failure to cure, but for his failure to maintain, frequently being no more than a patient that is destined to die as a severely injured—the result of which is a permanent disability. LOOK OUT FOR CONSPIRACIES.
Theophile is cautioned against another conspiracy, this time to "abolish the religion of Mohammed" and to "roll a Arabian Empire," the most dangerous of all to the conspirator, because he has the name of Partholamius, the name of the prophet of the Jews. He knows that the conspirator exists, and they will proceed to do away with their error when the spurious material is brought forth.

THE ROAD TO HEALTH!
HOLLOWAY'S PILLS

**CURE OF A DISORDERED LIVER AND BAD DI-
 GESTION.**

Copy of a Letter from Mr. J. W. Kirkas, Chem-
 ist, 7, Prescott Street, London, dated
 10th June 1861.

To Professor Holloway.

Sir—Your Pills and Ointment have saved the
 highest and rarest life. I hope I may have credit
 for one year. A gentleman, who could not refer
 for any enquires desires he will publish the
 particulars of his case. He had been troubled
 for years with a disordered Liver, and had ex-
 perience the last occasion, however the violence
 of the attack was alarming, and the inflammation
 was so severe, that doubts were entertained
 for his recovery. I am, Sir, your obedient servant,
 Mr. J. W. Kirkas.

of her Pills, being
just by the aid of your Pills, I was
informed that after the first, and each after-
ing dose, she had great relief. She continued to
take them, and although she used only three
doses, she is now in the enjoyment of perfect health.
I could have sent you many more cases but the
love from the severity of the attack, did it
speedily cure. I think speaks much in favor of your
as containing Pills

AN EXTRAORDINARY CURE OF CHOLERA
MATH. PARKMAN, NEW YORK, writes to the
author of a Letter inserted in the Boston Free Press
of the 1st March 1851, by M. J. Ward
Margaret M. C. (now in relation with the Boston
Society of New London) had been suffering from a
violent rheumatic fever, had been void of rest, and
in which had entirely deprived her of all the
times, during this period she was subjected to the
of the most eminent medical men, and she was
and by their her case was considered hopeless.
A friend prevailed upon her to try the Pills, and
of the Pills, which she commenced to take, and in
an incredible short space of time, these effected a
perfect cure.

SIR—I desire to bear testimony to the good ef-
fects of Holloway's Pills. For some years I suf-
fered severely from a pain and tightness in the
stomach, which was also accompanied by a
rheumatism that prevented me from walking
about. At Sixty years of age, and after obtaining
my advanced state of life, these Pills have
restored me that I am desirous that others should
